Business, Commercial & Property Finance

Help Your Business Grow With the Annual Investment Allowance.

What is AIA?

Annual Investment Allowance (AIA) allows businesses to claim up to £200,000 in capital allowances per fiscal year. AIA can be deducted from taxable profits at a rate of 100%. It also applies to hire purchase, but does not extend to lease-based assets.

Who Can Claim?

Most businesses are eligible for AIA. Unfortunately, however, trustees and partnerships which are comprised of both individuals and companies will **not** be able to claim.

Taxable Profits

For every **£1** spent by your business, you will be eligible to save an additional **£1** in taxable profits. This is true until an expenditure of **£200,000** has been reached.

Eligible Assets

Plant & Machinery

Agricultural Machinery

Office Furniture & Equipment*

Vans & Truck

Building Fixtures & Fitting

Wind Turbines

Optic Cabling

Amusement Equipment

Driving School Cars

Cranes & Diggers

Lathes & Tooling

Computers & Software*

How it works

If your qualifying spend is **£250,000** for an accounting year ending **December 2018** or after, **£200,000** will be eligible for **100% tax relief**. The remaining **£50,000** will receive **18%** (or **8%** if the asset is an integral building feature).

Next Steps
